

The aim of this course is to provide delegates with health and safety awareness, relating to the engineering construction industry, before going to work on a site. This course includes theory elements, with tests being conducted on each.

This course covers the following Health and Safety topics:

- Safe Behaviours at Work
- Consequences of good/bad safety
- Health and Safety at Work Act 1974
- Risk Assessments
- What is a Hazard?
- What is a Risk?
- Hierarchy of Control
- As Low as Reasonably Practical
- Fire Safety
- Manual Handling
- PUWER
- Noise
- HAVS
- Confined Space
- COSHH
- LOLER
- Asbestos
- Working at Height
- Site Transport
- Signage
- Excavations
- Electric/Isolation
- Environment
- Reporting Accidents/RIDDOR.

Duration

- 2 Day - Novice Course
- 1 Day - Refresher Course *(to renew a current card which is still in-date).*

Attendee Numbers

A maximum of 16 delegates can attend this course.

Location

This course can take place at our training centre in Bo'ness, West Lothian or on a site, subject to onsite requirements.

Certification

Upon successful completion of the tests, delegates will be registered with ECITB (Engineering Construction Industry Training Board) and issued with a CCNSG Safety Passport Card, valid for 3 years.

Progression

To maintain their card and registration with ECITB, delegates are required to complete a 1 Day CCNSG Safety Passport Refresher Course every 3 years.

Other Information

The 1 Day CCNSG Safety Passport Refresher Course must be completed before the expiry date of a current card. The 3-month grace period is no longer recognised. If a card has passed the expiry date, delegates are required to complete the 2 Day CCNSG Safety Passport Course again. The 1 Day Refresher Course can be taken up to 6 months prior to the expiry date and the new card will be dated 3 years from the expiry date on the original card.
